### **DETAILED ACTION**

This office action is in response to the applicant's RCE dated 11/03/2006 and amendment dated 10/09/2006.

The applicant has amended claims 1-2, 4-7, 9-10, 12, 15 and 22.

The applicant has canceled claims 3 and 17.

Claims 1-2, 4-16 and 18-24 are pending.

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/09/2006 has been entered.

### ***Response to Amendment***

2. Applicant's arguments (see amendment filed 10/09/2006), with respect to all claims rejected in the examiner's final office action dated 8/03/2006 have been fully considered and are persuasive. All of the rejections outlined in said final office action have been withdrawn.

### EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Larry Ashery on 11/22/2006. The examiner herein amends the following claims:

Claim 1, line 6: "... test sequences includes a test pattern used with a plurality set of conditions and the plurality set of ...".

Claim 5, line 3: "... sequences includes a test pattern used with a plurality set of conditions and the plurality set of ...".

Claim 7, lines 9 and 10: "... wherein each of said test sequences includes a test pattern used with a plurality set of conditions and the plurality set of conditions are different between each of said test sequences; ..."

Claim 12, line 10: "... sequences includes a test pattern used with a plurality set of conditions and the plurality set of ...".

### ***Allowable Subject Matter***

4. Claims 1-2, 4-16 and 18-24 are allowed. The following is an examiner's statement of reasons for allowance:

As per independent claims 1, 7 and 12, the references Giles and Templeton teach a method of performing manufacturing tests on an embedded memory device comprising applying a first stress test to the memory using a BIST, and using a plurality of sequences where each sequence includes a pattern using a set of conditions that is different from another sequence, detecting and repairing a failed cell, and applying a second stress test. But the references herein have failed to teach, suggest or disclose the unique feature of the applicant's claims 1, 7 and 12 where the repaired cells are tested during the second test, the second test being different from the first. Also, as per claims 7 and 12, the references also fail to teach a set of timings being applied using built-in self-test controls.

As per independent claim 15, the examiner accepts the applicant's reasons for allowance outlined in the after final amendment dated 10/09/2006.

Consequently, dependent claims 2, 4-6, 8-14, 16 and 18-24 are also allowable in view of their dependence on the allowed independent claims.

In all, claims 1-2, 4-16 and 18-24 are allowed, and are renumbered as claims 1-22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
